What's Coming Soon?

Faculty/Staff Course

This new course will provide a 20-minute hazing prevention module designed specifically for those working in higher education.

Booster Course

Designed as a refresher, it reinforces what students have already learned about recognizing, preventing, and responding to hazing, helping them stay informed and empowered to build safer, more inclusive teams and communities.

High School Course

Learn how to recognize, prevent, and stand up to hazing in the school community. This interactive course will help K-12 communities build safer, more supportive teams and groups while promoting respect and belonging. Perfect for schools, teams, student leaders, and anyone involved in group activities.
